

STAINLESS TOOL CART—MODEL 1201

Description:

ARCHON STAINLESS TOOL CART model 1201, offers the perfect way to transport tools and service equipment anywhere within your production facility. Constructed from polished 304 SS, it is washdown ready for the harshest production environments in the food and beverage, chemical and pharmaceutical industries. All bins and trays are smooth and perforated to allow for drainage.

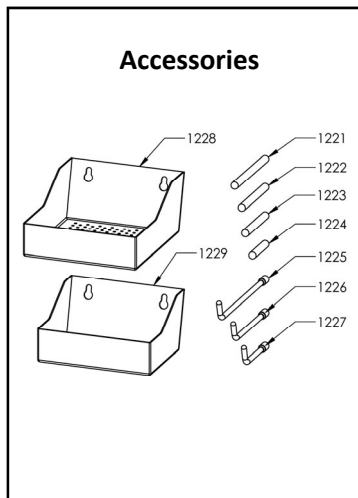

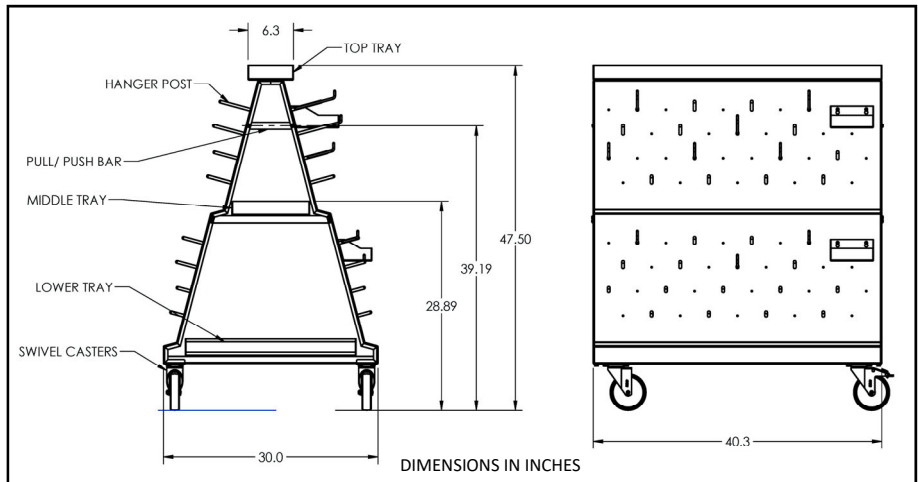

5" swivel and locking casters provide smooth rolling and easy movement over all types of flooring, and the locks provide stability when not in motion.

The included (60) straight posts, (9) hook posts and (2) hanging bins may be positioned in any of the (152) mounting holes. Top, middle and lower trays are provided for transporting heavy and bulky items, and the push / pull bar allows for a comfortable grip while moving.

Features and Specifications:

- 40-1/4"L x 30"W x 47-1/2"H
